Project Summary

The housing and infrastructure upgrades focused on the repair and replacement of essential health hardware to ensure homes in the homelands are safe and enable occupants to carry out healthy living practices (HLPs).

Priority was given to safety by identifying and addressing urgent repairs and maintenance needs across housing and infrastructure. Following this, upgrades improved the functionality of health hardware within homes to better support healthy living practices, particularly washing people.

The works contributed to improved healthy homes by:

- Improving household safety
- Supporting healthy living practices
- Enhancing overall housing quality

All works were planned and delivered in consultation with local community members, supporting local decision-making. Local businesses and local Subcontractors were exclusively engaged to supply materials and deliver services, ensuring the project directly supported local employment and capability.
