

# Septic Tank Safety

Septic tanks remove toilet water from houses. They are underground but have a lid so maintenance people can fix them.

**!** Do not move lids

**!** No children near lids

**Septic Tank lids should look like this:**

Lid fits

No Damage

**Septic Tank lids should not look like this:**

Cracked lid or concrete

Lid moved or gone

Do not try to fix a broken septic tank lid yourself.

**If you see a broken lid, call 1800 104 076 right away.**

## Inspections

To make sure you and your family are safe, we will be inspecting septic tank lids. For more information, talk to Housing in your area.
