Project Summary – House 7

Bullant Building has completed the housing upgrade works to House 47 at Blackwater on behalf of the NT Territory, Families, Housing and Communities.

All works have been completed in accordance with the scope, and the final product has been delivered to the high standards expected by the NT Government.

The work commenced on August 14, 2024, and was completed on September 10, 2024.

Bullant Building achieved a 32% indigenous employment rate on this project and a 100% Northern Territorian employment.

Bullant Building was engaged to deliver the following scope of works for House 7 at Blackwater Homelands under agreement HHIPC00010 for housing upgrades in the Western Desert Homelands region.

The completed scope of works includes:

Site establishment:

- Yard clean and cleared from all debris – stockpiled in fenced off area to be disposed at Papunya dump site
- Area was enclosed by the fence at the house with proper signage displayed to safeguard public
- Isolation of power to house for cleaning entire house and reconnection of power after completion of works

Demolition

- Stripping and removal of all electrical fittings as per scope of works
- Removal and disposal of all windows, doors and fixtures as per scope of works
- Pressure clean entire house and scrub required areas

Bathroom and laundry

- Waterproof wet areas
- Prep, tile and grout bathroom floors, shower walls and splash back
- Install 1 x new 820mm solid core door including hardware, RP4 door seals, lockset and screen door
- Install 2 x new obscure vented window with flyscreen
- Prepare and paint all surfaces (walls, ceilings, doors and frames)
- Install new electrical fittings including light fittings, switches, exhaust fan and electrical points as required
- Supply and install new plumbing fixtures and fittings including mixers, outlet, shower rose and waste grate
